Extruderschnecke - Vorher

Extruderschnecke - Nachher

## Professional Cleaning Service for your Tools and Parts

- For plastics-, rubber-, paint- and chemical production tools
- Fast - Gentle - Economically

## The better way:

We clean for you as a competent service provider in full service. Using modern methods for example Pyrolysis, Ultrasound and blasting technology for your production tools like:

- extrusion or injection molding tools
- adhesive or coating device
- Extrudersnails,
- filters
- shapes etc.

In addition to a comprehensive consultation, we offer you the opportunity to carry out their own cleaning tests of tools up to a length of 3 m and / or weight of 4 tons.

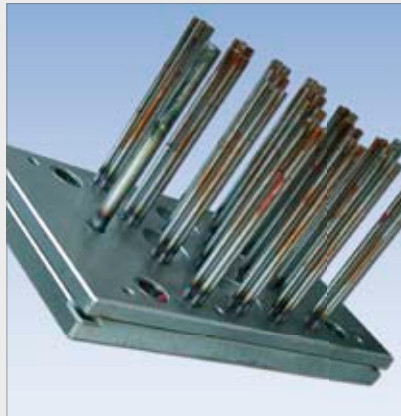

Quality inspection after the cleaning

## Cleaning examples:

Mechanical cleaning

Hydrous cleaning

Thermal cleaning
